4.26 Drug Utilization Review Program

- A. 1. The Medicaid agency meets the requirements of Section 1927(g) of the Act for a drug use review (DUR) program for outpatient drug claims.
2. The DUR program assures that the prescriptions for outpatient drugs are:
- Appropriate
 - Medically necessary
 - Are not likely to result in adverse medical results
- B. The DUR program is designed to educate physicians and pharmacists to identify and reduce the frequency of patterns of fraud, abuse, gross overuse, or inappropriate or medically unnecessary care among physicians, pharmacists, and patients or associated with specific drugs as well as:
- Potential and actual adverse drug reactions
 - Therapeutic appropriateness
 - Overutilization and underutilization
 - Appropriate use of generic products
 - Therapeutic duplication
 - Drug disease contraindications
 - Drug-drug interactions
 - Incorrect drug dosage or duration of drug treatment
 - Drug-allergy interactions
 - Clinical abuse/misuse
- C. 1. The DUR program shall assess data use against predetermined standards whose source materials for their development are consistent with peer-reviewed medical literature which has been critically reviewed by unbiased independent experts and the following compendia:
- American Hospital Formulary Service Drug Information
 - United States Pharmacopeia-Drug Information
 - American Medical Association Drug Evaluations
2. The DUR program assesses opioid utilization against current evidence-based clinical practice guidelines and State and Federal laws and regulations.
- D. DUR is not required for drugs dispensed to residents of nursing facilities that are in compliance with drug regimen review procedures set forth in 42 CFR 483.60. The State has nevertheless chosen to include nursing home drugs in:
- ☐ Prospective DUR
 - ☐ Retrospective DUR

1927(g)(2)(A)
42 CFR 456.705(b)

- E. 1. The DUR program includes prospective review of drug therapy at the point of sale or point of distribution before each prescription is filled or delivered to the Medicaid recipient.

1927(g)(2)(A)(i)
42 CFR 456.705(b)(1)-(7)

2. Prospective DUR includes screening each prescription filled or delivered to an individual receiving benefits for potential drug therapy problems due to:
- Therapeutic duplication,
 - Drug-disease contraindications,
 - Drug-drug interactions,
 - Drug-interactions with non-prescription or over-the-counter drugs,
 - Incorrect drug dosage or duration of drug treatment,
 - Drug allergy interactions,
 - Clinical abuse/misuse
 - Opioid utilization patterns inconsistent with standards set by the State DUR board, including but not limited to days supply, duplicate fills, therapeutic duplications, early fills, quantity limitations, dose limitations (e.g., daily MME)
 - Atypical antipsychotic age limits, quantity limits, therapeutic duplication

1902(A)(85) and Section
1004 of the Substance
Use-Disorder Prevention
that Promotes Opioid
Recovery and Treatment
for Patients and
Communities Act
(SUPPORT Act)

1927(g)(2)(A)(ii)
42 CFR 456.705(c)&(d)

3. Prospective DUR includes counseling for Medicaid recipients based on standards established by State law and maintenance of patient profiles.

1927(g)(2)(B)
42 CFR 456.709(a)

- F. 1. The DUR program includes retrospective DUR through its mechanized drug claims processing and information retrieval system or otherwise which undertakes ongoing periodic examination of claims data and other records to identify:
- Patterns of fraud and abuse,
 - Gross overuse,
 - Inappropriate or medically unnecessary care among physicians, pharmacists, Medicaid recipients, or associated with specific drugs or groups of drugs.
 - Opioid utilization or prescribing patterns, to include PDMP data, inconsistent with current evidence-based clinical guidelines or suggestive of fraud, waste, or abuse

1902(A)(85) and Section
1004 of the Substance
Use-Disorder Prevention
that Promotes Opioid
Recovery and Treatment
for Patients and
Communities Act
(SUPPORT Act)

1927(g)(2)(C)
42 CFR 456.709(b)

2. The DUR program assesses data on drug use against explicit predetermined standards including but not limited to monitoring for:
- Therapeutic appropriateness
 - Overutilization and underutilization
 - Appropriate use of generic products

42 CFR 456.703(c)

4. The interventions include in appropriate instances:
- Information dissemination,
 - Written, oral, and electronic reminders,
 - Face-to-face discussions,
 - Intensified monitoring/review of prescribers/dispensers.
 - Referral of prescribers/dispensers to program integrity and/or fraud control entities

5. The DUR program has structured processes in place to investigate, evaluate, and take action commensurate with offending actions.
- General education to the provider community
 - Education to specific providers/provider groups
 - Referral of provider to Surveillance Utilization Review (SUR) program

- H. The State assures that it will prepare and submit an annual report to the Secretary, which incorporates a report from the State DUR Board, and that the State will adhere to the plans, steps, and procedures as described in the report.

- I. 1. The State establishes, as its principal means of processing claims for covered outpatient drugs under this title, a point-of-sale electronic claims management system to perform online
- real-time eligibility verification,
 - claims data capture,
 - adjudication of claims, and
 - assistance to pharmacists, etc. applying for and receiving payment.

2. Prospective DUR is performed using an electronic point-of-sale drug claims processing system.

- J. Hospitals that dispense covered outpatient drugs are exempted from the drug utilization review requirements of this section when facilities use drug formulary systems and bill the Medicaid program no more than the hospitals purchasing cost for such covered outpatient drugs.
